LINCOLN IN NUMISMATICS

A Descriptive List of the Medals, Plaques, Tokens and Coins Issued in Honor
of the Great Emancipator.

SECOND SUPPLEMENTARY LIST.

COMPILED BY ROBERT P. KING, ERIE, PA.

The original list of Lincoln Medals, Tokens, etc., to which the following is the second supplement (the first supplement appearing in April, 1927), was published in The Numismatist of February, 1924. These are numbered consecutively following the final number in the first supplement. Most of these pieces are of recent issue, appearing since the first supplement was published.

No. 946.

941. Obv., Clothed, bearded bust of Lincoln facing right in plain field, name of designer, "J. E. ROINE," near edge on lower right-hand side.

Rev., Blank. Mounted on oak panel.

Copper.

Size 177mm.

942. Obv., On a plain rectangular planchet, a clothed, bearded bust of Lincoln facing right in quite high relief. "LINCOLN" below bust.

Rev., Blank.

Spelter.

Size 192x126mm.

943. Obv., A slightly raised oval on a rectangular base, a clothed,

smooth-face bust of Lincoln facing right; in lower right-hand corner the artist's name, "M. FONQUERQUE 1925."

Rev., Blank.

Bronze.

Size 176x125mm.

944. Obv., Irregular shaped plaque; left section, nude, bearded bust of Lincoln facing right; upper right-hand section, dome of U. S. Capitol; lower right, Log Cabin. On lower edge in incuse lettering, "1900 LINCOLN DINER"

Rev., Following lettering on a receding rough surface, "PAUL W. MORRIS SC" below, "THE HENRY BONNARD BRONZE CO. FOUNDERS N. Y. 1900."

Bronze, cast.

Size 102x100mm.

945. Obv., Same as preceding, with the exception that on lower edge appears in incuse letters the single word, "LINCOLN"

Rev., Same as preceding.

Bronze, cast.

Size 102x100mm.

946. Obv., Within a raised rim a clothed, bearded bust of Lincoln facing left.

Rev., Blank. On edge in incised letters, "NEPOMUCENO FEC. MANILA 1930"

Wood, hand-carved.

Size 91mm.

Note—There may be a question as to the propriety of admitting a hand-carved medal in a list of this kind, but the work being so exceptional I have concluded to admit it. The medal was carved by G. Nepomuceno, a native Philippino sculptor, whose work heretofore has run largely to church statuary and carvings in ivory. This piece is cut from molave, a Philippine wood resembling light mahogany. It is a very expressive likeness and a beautiful piece of work.

947. Obv., On a plain surface surrounded by a round rim, a clothed, bearded bust of Lincoln facing three-quarters to right.

Rev., Blank.

Bronze, cast.

Size 82mm.

Note—This medal was cast by the Limerick Company of Baltimore, Md., in 1912 for Lincoln Post No. 3, also of Baltimore, from a pattern carved by one of the members of that post, sixty medallions being issued.

948. Obv., On an oval pebbled planchet, a nude, bearded bust of Lincoln facing right; no inscription.

Rev., Hollow impression where head is on obverse; in incised letters at top, "1809 1909"; at bottom, "CHI. HDW. FOUNDRY CO."

Bronze, a cast piece.

Size 112x86mm.

949. Obv., In a concave sunken center, a three-quarter facing bearded, clothed bust of Lincoln facing right in a finely pebbled field. Inscription above bust, "LUCKY PENNY"; below, on smooth surface between bust and outer rim in small letters, "ABRAHAM LINCOLN"

Rev., A rather inaccurate representation of the Davidson Fountain, surrounded by trees and buildings, a number of people at either side and in front of the fountain. Inscription below fountain in two lines, "FT. SQUARE & TYLER DAVIDSON FT. CINCINNATI, OHIO."

Base metal coppered.

Size 76mm.

Note—The obverse of this piece is same as that of No. 639 in original list.

950. Obv., Same as preceding, with exception of date "1863" to right of bust.

Rev., In a concave sunken center the U. S. Capitol at Washington, surrounded by a tri-parted circle; in upper left section, " x WASHI x "; in upper right section, " x NGTON x "; in lower section, " x D. C. x ", this surrounded by a finely pebbled surface, the lower part showing an open wreath of leaves and berries, the upper field having inscription in two lines, "SOUVENIR—OF"

Copper (appears to be hollow).

Size 76mm.

Note—This reverse is same as that of No. 639 in original list, with exception that lettering is larger throughout and other minute differences.

951. Obv., Large, nude, bearded, profile bust of Lincoln facing right on a plain field.

Rev., A heavy, round, closed wreath composed of oak and olive leaves enclosing in three lines "SOUVENIR OF CHICAGO"

Silvered. (Crude workmanship.)

Size 76mm.

Note—The obverse of this piece shows same head as that on No. 518 in original list.

952. Obv., Same head as on preceding, with a pearled circle surrounding edge, "ABRAHAM" at left, "LINCOLN" at right, dates slanting downward, at left "1809" and at right "1933"

Rev., A representation of Lincoln's cabin; below, "BIRTHPLACE OF LINCOLN"; at left, "1833"; at right, "1933"; above, "A CENTURY OF PROGRESS"; at bottom, "CHICAGO WORLD'S FAIR" all enclosed within a pearled edge.

Lead with a heavy bronze coating. (Rather crude work, especially the edge.)

Size 76mm.

No. 955.

953. Obv., On upper part of medal, a clothed, bearded bust of Lincoln facing right in oval, flag and oak leaves at either side, date "1854" to left, and "1929" to right, under which is inscription in seven lines, "JACKSON, MICHIGAN HERE, UNDER THE OAKS JULY 6th 1854, WAS BORN THE REPUBLICAN PARTY DESTINED IN THE THROES OF CIVIL STRIFE TO ABOLISH SLAVERY VINDICATE DEMOCRACY AND PERPETUATE THE UNION." At bottom, oak leaves tied with ribbon; on right-hand margin in small incused letters, name of designer, "KILENYI"

Rev., Scene depicting meeting of Laverty, Blackman and the Indian Pewy-tum (also the latter's dog) at early sunrise July 4th, 1829, at what is now Grand River at Trail Street, Jackson, Mich. In oval above, President Jackson facing slightly to left, "ANDREW JACKSON" below bust. Below central scene inscription in four lines, "JACKSON CENTENNIAL CELEBRATION JULY 4th" Dates, "1829" to left, "1929" to right.

Bronze, silvered.

Size 76mm.

Note—For reduction of this piece see No. 1010.

954. Obv., Clothed, bearded bust of Lincoln facing right (a very poor likeness, a veritable caricature); at top, "LUCKY PENNY" following curve of medal; to right of bust, "1863."

Rev., A representation of a stone house surrounded by fences and shrubbery (a nice piece of die work); inscription above in three lines, "GEN. R. E. LEE'S HEADQUARTERS, GETTYSBURG, PA"

Copper.

Size 75mm.

955. Obv., Same as preceding, with a slight difference in the figure 3 in date and the addition of "MADE IN JAPAN" below bust.

Rev., In the center an old English type of house flying the American flag, clouds above, surrounded by a band containing, above, "BARBARA FRITCHIE HOME AND MUSEUM" Below, "FREDERICK, MD." Size 75mm.
Copper.

956. Obv., Clothed, bearded bust of Lincoln facing right, surrounded by ten stars, five on each side of bust. A rather poor copy of the Lincoln cent. Rev., "SOUVENIR PENNY OF" (in three lines) followed by "CLEVELAND" in sunken panel, star in center of piece, a spray on either side consisting of eleven leaves to left and nine leaves to right. Sharp-cornered S in "SOUVENIR"
Copper. Size 74mm.

Note—This obverse, also the twenty-five following, is same as No. 642 in original list.

957. Obv., Same as preceding.
Rev., Same as preceding; in sunken panel, "ST PAUL" Size 74mm.
Copper.

Around lower edge following curve of medal, "SELECTED BY THE AUTHOR FROM THE POEM, 'LINCOLN, THE MAN OF THE PEOPLE' FOR MEDALLIC ART CO., N. Y."; on edge, incused, "Medallie Art Co."

Bronze, Silvered.

Size 69mm.

Note—The obverse of this and the piece following is same as that of No. 781 in original list.

987. Obv., Same as preceding.

Rev., Two Roman fasces, between which is inscription in six lines, "WITH MALICE TOWARD NONE, WITH CHARITY FOR ALL, WITH FIRMNESS IN THE RIGHT AS GOD GIVES US TO SEE THE RIGHT, LET US STRIVE ON TO FINISH THE WORK WE ARE IN. ABRAHAM LINCOLN" (autographic signature). On edge, incused, "Medallie Art Co."

Bronze, Silvered.

Size 69mm.

988. Obv., Three superimposed heads of Abraham Lincoln, Gen. Samuel Chapman Armstrong and Booker T. Washington, the three men most closely

identified with the organized effort to improve educational opportunities for the negro. Inscription surrounding busts, "HAMPTON SALUTES TUSKEGEE" and at bottom "1881-1931"

Rev., A quotation from Booker T. Washington, in five lines, "I LEARNED AT HAMPTON THAT THOSE WHO ARE HAPPIEST ARE THOSE WHO DO THE MOST FOR OTHERS," followed by incuse signature of Booker T. Washington. Sprays of wheat are at the left and running through the quotation, and at bottom, an anvil, hammer and tongs, and a scroll bearing the words "HEAD" (education), "HEART" (development of social relations), "HAND" (manual training). This is in honor of the fiftieth anniversary of Tuskegee Normal and Industrial Institute, it having been founded in 1881 by Booker T. Washington. Design by Juno Juszko, sculptor, of New York City, whose name appears below busts at right. Die work by Medallie Art Co. of New York.

Bronze.

Size 70mm.

THE NUMISMATIST AND THE A. N. A. TWENTY-FIVE YEARS AGO.

The issue of *The Numismatist* for August, 1908, contains the following: "Higley Coppers—Granby Coinage"; "Conference With Heath Estate—Future of *The Numismatist*—A. N. A. Library, etc."; "A Coin Thief Removed." There are reports, with some prices realized, of recent auction sales, notably that of the Chambers Collection of paper money. There is also a report of the convention of the Ohio State Numismatic Society. Details are given of the A. N. A. convention to be held in Philadelphia, September 28 to October 2. In the department devoted to the A. N. A. are the names of 13 applicants for membership, with nominations for officers to be elected at the Philadelphia convention. There is a noticeable increase in advertising in this issue.

THE MONETARY USE OF SILVER IN 1933.

There is a good deal of information valuable to numismatists in a pamphlet just issued by the Bureau of Foreign and Domestic Commerce of the U. S. Department of Commerce. The title is "The Monetary Use of Silver in 1933," and it may be secured from the Superintendent of Documents, Government Printing Office, Washington, D. C., for the price of 10 cents. It is particularly valuable in that it specifies monetary units of the various countries of the world and also gives a line-up of the various silver coins in circulation.

EUROPEAN COIN NEWS.

During the last few years rust and other causes have destroyed many of the iron and zinc necessity coins issued by many European cities during the war, especially in Germany. Those coins have attracted the attention of many collectors and created many new ones. Very few restrikes in silver or bronze were made and the Deutsche Hartgeldsammler-Zeitung is attempting to compile a list of all restrikes so far known. An appeal to search for original dies met with some success.

Spain has issued the first coins as a republic, a one peseta and 25 centimes, the latter holed.

GOVERNMENT PUBLICATIONS RELATING TO COINS, MEDALS AND STAMPS.

The following list of publications should be of interest to collectors of United States coins, medals, paper money and stamps. In order to obtain these publications, write to the Superintendent of Documents, U. S. Government Printing Office, Washington, D. C., enclosing Post Office money order for the exact sum (no postage needed) or more, to be safe. If the amount sent is too much, you will receive coupons, in 5c. denominations, which are good at the Government Printing Office at any time for other publications.

When ordering these publications, be sure to give the exact title and number as given here, to save considerable delay.

PROCESS USED TO MAKE PLASTER CASTS OF TOKENS OR MEDALS.

The following process for making plaster casts of tokens or medals has been furnished by one of our members:

1—Heat some water to a temperature between 140 and 160 degrees Fahrenheit. If the water is of a higher temperature it will decompose the impression material.

2—While the water is being heated apply a thin coat of vaseline to the tokens or medals to be reproduced and to the glass slab, to prevent the compound from adhering to them.

3—When the water reaches the desired temperature place a wafer of compound in it until perfectly pliable and then spread over the glass slab to a diameter sufficiently large to accommodate the token or medal.

4—Press the token or medal into the softened compound and with the fingers push the material close to the edge of the specimen, being careful not to have any compound on the exposed surface, as this would prevent its removal. Maintain steady pressure until the compound begins to chill.

5—After the compound has thoroughly hardened and one wishes to take an impression of the exposed surface, then it is necessary to vaseline the surface of the cold compound that is to come in contact with the new batch of warm material. If the cold compound is brought in contact with the warm without vaselining its surface the two surfaces will stick to each other.

6—Apply the warm compound over the exposed surface and apply pressure with a glass slab, previously vaselined. Sustain the pressure for one minute and then wait until the compound hardens. When cold it is quite hard, and for this reason I prefer compound to modelling clay, which is apt to distort during the separation.

7—Once the compound is thoroughly hardened, which can be hastened by immersion in cold water, pointed orange wood sticks are used to pry out the

medal from the compound. A metallic instrument could be used, but there is always the danger of slipping and scratching the surface of the specimen. Once out, the medal leaves a perfect mold as smooth as any metallic surface.

8—Mix some plaster of Paris in a rubber bowl to a consistency of thick cream and with a camel's hair brush paint the whole inner surface of the gold with the plaster so mixed. This is to be done rapidly, as the plaster sets rather quickly, but it must be thorough if one expects to eliminate air bubbles.

9—After the painting pour into the mold enough of the mixed plaster of Paris to obtain the desired thickness and wait thirty seconds, then turn the impression upside down and place it on a glass slab. In this manner one can obtain a perfectly smooth and flattened under surface.

10—Allow the plaster to set, which will take an hour or so, depending upon the consistency of the mix. The setting time can be hastened by the addition of a pinch of salt—plain table salt—to the water with which the plaster is mixed. This, however, will reduce the strength of the plaster. A much better way, and one which will increase the tensile strength of the plaster is to add a pinch of potassium sulphate.

11—To remove the compound from the plaster it is again necessary to warm it as indicated in step one, and once pliable it will separate itself from the plaster with very little effort on the part of the operator.

12—With a knife trim the excess of plaster to the convenient shape and form.

Note—I don't advise a reproduction of any token or medal showing both sides as one would obtain if step No. 6 is carried out, as the average token or medal is quite thin and the plaster reproduction will not be very strong. As this method is used mainly to obtain better photographs, or to show both sides of the desired specimen, there is no reason why one should be compelled to make only one impression for both sides. My advice is to take two impressions, one for the obverse and another for the reverse.

The necessary things can be purchased in any dental supply house. The cost is approximately \$2, and with the exception of the plaster of Paris and the vaseline it will be a permanent outfit with which one can take thousands of impressions at no additional cost: Kerr's Perfection Impression Compound; bath thermometer; glass slabs; vaseline; pointed orange wood sticks; spatula; rubber bowl for mixing plaster; medium-size camel's-hair brush; fine grade of plaster of Paris.

Method For Making Paper Rubbings.

This requires the use of a press. A book press or letter-copying press will serve the purpose. I have used a dental flask press, the cost of which is \$4.50, but recently I procured from O. B. Carlsen, a fellow-member of the California Coin Club, who is a die maker, a press of his own design which is far superior to the one I had previously used.

The method is quite simple: The token or medal is placed between two pieces of paper, not very thin nor very thick, that has been thoroughly moistened; the whole is placed between two heavy felt pads, and pressure applied by means of the press, gradually but steadily for about two minutes. The pressure is then released and while the paper is still moist and with the token in between, rub with powdered graphite, and a perfect raised reproduction will be obtained.

BUFFALO CONVENTION BADGES STOLEN.

About three dozen bronze convention badges and some of the silver convention medals of the 1930 A. N. A. convention have been removed from the club's cabinet. The theft was evidently committed some weeks ago and the loss not immediately discovered. The Buffalo association has a record of all persons to whom badges and medals were distributed at and since the 1930 convention, and it is believed that very few have changed hands. Collectors and dealers are requested to cooperate if the badges are offered in other cities.

Editorial Comment—Numismatic News

THE CHICAGO CONVENTION OF THE A. N. A.

With the Century of Progress Exposition as a background, and with greatly reduced railroad fares and moderate hotel rates, the convention of the A. N. A. in Chicago the last week in August should draw at least the usual number of members, in spite of the depression.

This will be the fourth time the local organization of coin enthusiasts in Chicago has acted as host to a convention of the A. N. A., and all have been memorable occasions. The entertainment at all of them has been varied and abundant, and the exhibits have included specimens from remarkable collections. While the local committee announces that the entertainment features they will provide this year will not be as numerous as on former occasions, the program has purposely been curtailed to allow more time for sightseeing at the Century of Progress Exposition.

Perhaps the most important matter the Association can consider at its business sessions is to devise some plan by which our membership can be increased. It is true that this has always been a favorite subject for discussion at conventions, even in those years when the report of the General Secretary showed a gratifying increase over the preceding year. But it has been only natural to expect many lapses in membership during the last two years, the effects of the depression having been as keenly felt by the members of the A. N. A. as by others. We do not attribute the falling off in membership to a loss of interest in collecting by those who have failed to renew. It is due, rather, we believe, to the financial losses sustained in one

form or another by everybody and the need, in many cases, of confining expenses to the actual necessities of life.

And we are confident that a general interest in numismatics has been stimulated by the developments in the financial world within the last few months. The great amount of scrip issued in nearly every State in the Union has drawn the attention of the public to the many forms that substitutes for money may take. And collectors have been regaled by the numerous press reports of the bringing out of old coins that for years have remained hidden and almost forgotten, but which the hard times, with a pressing need for money, have compelled the owners to place in circulation again.

Whether the interest aroused in the public has been sufficient to produce many new collectors is a question. But we believe the soil is fertile at this time, and with some energetic work on the part of individual collectors and the local societies, many new collectors may be harvested. Just how we may take advantage of present conditions to increase the number of collectors and members is one of the things which the coming convention may well give serious attention.

SOCIETY OF MEDALISTS' SEVENTH ISSUE.

The seventh issue of the Society of Medalists, New York City, has been issued and is illustrated here from a photograph furnished by the society. (The illustration is reduced. The medal measures $2\frac{7}{8}$ inches in diameter.) The sculptor is Carl Paul Jennwein. His story of the designs is as follows:

"Fame and Glory are symbolized in this medal as the elements in the life of men which the awarding of medals is designed to promote and to recognize. But the artist has made a subtle distinction between that Glory which, unsought, belongs to those who aspire, strive and sacrifice for a great ideal, and that Fame which is won by self-seeking in the attainment of public eminence for the gratification of personal power and vanity.

"The representation of the cicada on the reverse of the medal might seem, at first, strangely out of keeping with the Latin word 'Fama' which it divides. The figure, however, relates to the original meaning of the term which is not necessarily high repute, but rather public notice, so often confused with fame in its better sense. Thus, the cicada, by its noisy and shrill self-assertion gains wide hearing, but it is only the discordant demonstration of an obstreperous but insignificant creature. But the symbol of Glory, the consummation of high achievement, is the winged child, expressing ingenuousness, guilelessness, faith and aspiration, which, in bestowing the laurels, is conscious only of purity of motive in the supreme attainment which glorifies life and labor.

"The Fame and Glory medal is designed to bring into contrast the two extremes of distinction among men, self-assertion and altruism, by these two unrelated emblems, the cicada and the child."

Medals of Massachusetts Bay Tercentenary

(Continued from *The Numismatist*, July, 1933.)

By SHEPARD POND, Boston, Mass.

Collectors of the interesting series of Massachusetts Bay Tercentenary medals will remember the description in the July, 1933, number of *The Numismatist* of a pretty little token described as the "Lord's Prayer Medal," a piece which came only recently to the attention of the compiler, three years after the celebration of the Tercentenary. In the description of this piece it was stated that there were two varieties of it, although the second had not come to hand at the time of going to press.

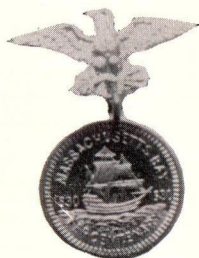

It is now possible to describe and illustrate this variety, the size and reverse of which is identical with No. 65 as given in *The Numismatist* for July. The difference is in the obverse, which, with minor variations due probably to reduction in size and necessarily changed spacing of the design, is the same as the well-known and widely distributed No. 3 medal, illustrated in the June, 1931, number of *The Numismatist*. The ship represents the famous *Arabella*, which in 1630 brought to Salem the English copy of the Massachusetts Bay Company's charter, Governor Winthrop (whose head appears on this medal) and a number of colonists.

No. 66.

Reverse.

No. 65.

Obverse—At top, "MASSACHUSETTS TERCENTENARY"; center, a ship sailing right; at bottom in circle, head of Puritan facing, between dates "1630—1930."

Note—The obverse of this medal is, with minor variations, the same as No. 3.

Reverse—Like No. 65, the Lord's Prayer within a laurel wreath tied at bottom with a ribbon in a bow-knot.

Edge—Plain. Holed, (through final S in Massachusetts) and suspended by ring from a pin the head of which bears a spread eagle.

Size—19 millimeters.

Metal—Bronze gilt.

Made by—The Schwaab Stamp and Seal Co.

Quantity—About 4000 pieces were struck of varieties No. 65 and No. 66 combined, presumably in approximately equal quantities.

INSCRIBED BARK USED AS PROMISES TO PAY.

Mr. Cist, of the Cincinnati Advertiser, says: "It may surprise many to learn that the first issue of paper money or promises to pay in the United States, is of Indian origin. In 1760, Pontiac, the great Indian chief, issued bills of credit, or promises to pay, in hieroglyphics of his own, drawn upon bark, with the figure of an otter—his arms—beneath. I extract this fact from a rare work, published in England in 1765, called, 'A Concise Account of North America,' by Major Robert Rogers. The major visited Pontiac, in the course of his travels through the country, and saw this currency. He adds that the whole emission was duly redeemed."—From July, 1847, issue of *Hunt's Merchants' Magazine*.

SOME MORE PUZZLING COUNTERMARKED COINS.

On two recent occasions Ragnar Cederlund, of Winnetka, Ill., one of the most prominent collectors in the United States of necessity and counter-marked coins, has sent us for illustration specimens which he was unable to attribute, and in both instances readers of the magazine have been able to assist him. This month he has furnished other countermarked pieces for illustration about which he hopes some one will be able to furnish information.

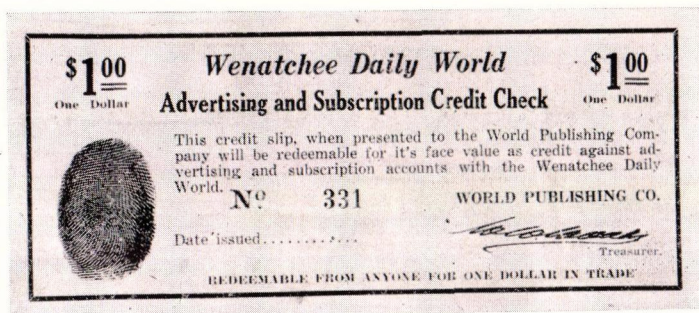

One of these is a Spanish four-real piece of Charles III, dated 1788, countermarked on the obverse with an arm and hammer, with three stars above and three stars below the arm.

The other stamp is impressed on the obverse of two half cents of 1835 and consists of a small spread eagle, with the figures "43" on one and "50" on the other. The spread eagle on both is apparently from the same stamp, while the numbers appear to have been made from an ordinary punch.

SCRIP WITH FINGER-PRINT OF TREASURER.

Now that so many places are issuing scrip it is the unusual scrip or that with unusual features which attracts our attention. The World Publishing Company, which publishes the Wenatchee Daily World in Wenatchee, Wash.,

issued scrip during the bank moratorium, having in the lower left-hand corner the finger-print of their treasurer, and as far as I know it is the only scrip that has used this means of protection against counterfeiting. The denominations were 25 and 50 cents and \$1. The issue amounted to be-

tween \$1500 and \$2000, which was readily taken by the business houses and was accepted generally by everyone in the community. The scrip has been retired, but proved very convenient in meeting the monetary stringency.

HARVEY L. HANSEN.

THE CENTRY OF PROGRESS OFFICIAL MEDAL.

The official World's Fair Medal (illustrated) is a bronze piece of unique design by Emuel Robert Zettler, head of the Industrial Art Section of the Art Institute of Chicago. On the obverse of the medal is portrayed a strong, swift figure, a symbol of energy and action, and representing the intellectual arch between man's resources and man's work. One foot of

the figure stands on the pillar of 1833 and the other on the pillar of 1933. The words "Research and Industry" give the keynote of the fair's theme. The reverse of this medal carries a relief plan of the World's Fair grounds. The medal has been issued in three sizes, 70mm, 58mm, and 38mm.

ROLLO E. GILMORE.

MEDAL FOR WORLD'S GREATEST MARKSMAN.

Below is illustrated a medal struck in honor of Adolph Toepperwein, of San Antonio, Texas, the world's greatest marksman. It is struck in copper and is the size of illustration. The dies were cut by Charles Simmang, Jr., and the reverse reads: "To the World's

Greatest Marksman, Adolph Toepperwein. Dedicated With Pride by the Citizenship of His Native City San Antonio, Texas, June, 1933." In a recent letter Mr. Simmang says: "I am sending you under separate cover a medal made for my distinguished friend, Mr. Adolph Toepperwein. This medal is struck from hand-

engraved dies which, unfortunately, seems to be a lost art, destroyed by the mechanically reduced sculpture, showing nothing of the individuality of the engraver and mechanical entirely in result. As I have had this matter up with the American Federation of Arts without attaining any results, I feel that The Numismatist will lend a kindly ear to an appeal for one of the noblest of the small arts and for its preservation."

VARIETY OF SOUTH AFRICAN SIXPENCE.

We illustrate here the British South African sixpence, dated 1933. The inscription on the reverse reads: "South Africa 1933 Suid Afrika, 6d." A

specimen of the sixpence of 1925 is illustrated for comparison. The inscription on this reads: "South Africa 1925 Zuid Afrika. 6 Pence." (Specimens from Rud Kohler, New York City.)

FOR COLLECTORS OF DIE VARIETIES.

I have a couple of coins which I have not heard about in any books I have read and would like to know if any other collector has noticed them before. They are as follows:

First—Two 1842 O mint quarter dollars, one with the O mint mark in the center between the sprig stem and arrow tails, with equal distance between the above and the top loop of the R in Quar. Dol. On the other quarter the O is a little more to the left, but very close to the arrow tail and farther away from the R.

Second—A 1909 Lincoln cent, no V D B. It looks like a defective planchet, as on the edge it seems as if there were cracks. I do not want to use anything to pry it apart, as I do not want to mar it. A line starts from the rim and goes downward past the cross of the first T in Trust, through the first small lock of hair just over the forehead close to left side of the eye, down the cheek and neck through the shoulder close to the lapel of the coat, down to the rim at the bottom of the coin. Also on the shoulder is a point which looks like an overlapping thin piece of metal. This also makes me think it is a defective planchet. I hope these will be of interest to collectors and others.

RADIO MONEY FROM CALIFORNIA.

Money is getting to be such a complex proposition that it is hard to know just where it begins and where it ends, but if it buys you something I presume that we will agree that it is actually money, and therefore I want to tell you about the KROW prosperity certificates, which is the first radio money that has come to my notice. It is issued by Station KROW, in Oakland, Cal., in denominations of 25, 50 cents, \$1 and \$5 and is put in circulation in the following manner. The station solicits the manufacturers of various products for donations of goods, which are then mentioned over the radio, and you send in your bids by mail or telephone. When notified that your bid has been successful, you send in the required amount in prosperity certificates. These certificates were given to you by the retailers in amounts equal to your purchase, and of course the retailers pay the station for the required advertising. That makes everybody happy, so radio money should be a good circulating medium.

Deaths

DR. MARTIN BURKE.

Dr. Martin Burke, of 147 Lexington avenue, New York City, died sud-denly of heart disease on July 10 at his summer home in Waterford, Conn., at the age of 77. He had been a member of the A. N. A. for several years and was interested particularly in Greek copper and portrait coins. He was also a member of the American Numismatic Society, New York, and the New York Numismatic Club.

Dr. Burke was one of the first American surgeons to use Lord Lister's methods of antiseptic surgery in this country and for over fifty years was a prominent practicing physician in New York. He lived and worked almost all his life in the same house on Lexington Avenue where his father, Dr. John Burke, had lived before him, practiced general medicine and surgery until the end of last year when repeated heart attacks forced his retire-ment. Until a few years ago his practice was one of the largest in the city. Only his ill health restricted its size.

He was graduated from St. Francis Xavier College and later from the

Bellevue Medical College. He was a member of the Citizens Union and he served as president of the East River Medical Association for many years. He is survived by his widow, a son, John, a brother and a sister. A requiem mass was celebrated at the Church of St. Mathias, Flanders, Conn.

NEW ADDITIONS TO THE A. N. A. LIBRARY.

The following books have been added to the Library during the past month:

"Mint Record of United States Coins," with the compliments of C. E. Green, 1553 Fargo Ave., Chicago.

Adams-Woodin's "United States Trial and Experimental Pieces" has been purchased and is now available to all interested in this subject.

Col. Robert E. Wyllie's "Orders, Decorations and Insignia" has also been purchased at a very reasonable figure. This is one of the books mentioned by Mr. Hansen in his article several months ago on literature for the collector of decorations. Incidentally, the Library has all of the Notes and Monographs published by the A. N. S. on this subject. If any of the decorations collectors are interested in purchasing a copy of Colonel Wyllie's work they should write the Librarian, who will be glad to tell them where to get a real bargain.

"The Coinage of the European Continent," by W. Carew Hazlitt has also been purchased for those interested in European issues. This is the only work that has attempted to cover the whole field in one volume and serves a very useful purpose as an introduction to this vast field.

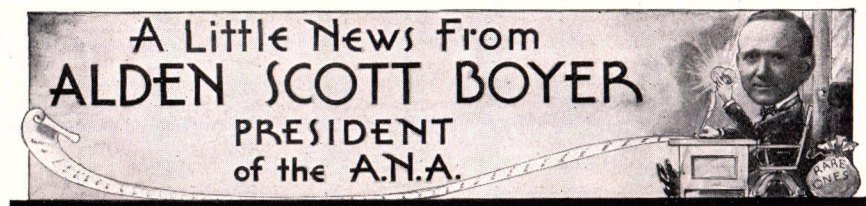

For those interested in the coinage of Great Britain we have purchased a copy of Ruding's "Annals of the Coinage of Great Britain," published in 1840, 3 vols., two of text and one with a 150-plate folio. This work is noted for the information it gives and the plates illustrate gold and silver coins that are not found in either Kenyon or Hawkins. It will be well worth the amount necessary for postage to one who is interested in this coinage.

These books are all available to members in good standing and there is no charge except for the postage to and from the Library. Just mail your request to Secretary Wilson and try us out.

Next month we hope to have a complete list of the Library's contents in *The Numismatist*.

July 14, 1933.

CHARLES W. FOSTER, Librarian.

A Good Story on Money.

Get hold of the National Geographic Magazine for December, 1927, and read the illustrated story, "The Geography of Money," by Wm. Atherton du Puy. This is something worth while.

Reprints of Mehl's Monthly Coin Articles.

The Hobbies magazine is now publishing the "star" numismatic articles published in the early days of Mehl's Numismatic Monthly. The article in the June Hobbies is "Coins: Why They Are Interesting," by Dr. Hassler. It is a well-done and learned discourse.

Mr. Lightner, of "Hobbies."

Lately I have bumped into Mr. Lightner in Chicago auction rooms regularly. He is a collector—"and how!" I heard that he bid \$52.50 on a Chinese

art object without success, but he does get lots of things, at prices he believes articles to be worth. That is half of the fun of collecting.

At Last I Go to Paris.

When the Europa steams out of New York harbor on the 4th of July I will be on the boat, headed for Paris. I should have gone six months ago, but this time it's a "go." I hope to be back for the A. N. A. convention in the latter part of August.

The New President of the A. N. A.

I don't know who he will be, but whoever he is, I will send him my best wishes for a successful term in office. I have enjoyed the year as President. It was a pleasure and an honor—yes, it was.

Henri Ripstra.

Henri Ripstra was recently made a "key" member for life in the Lions Club. Wait until you see Henri at the Chicago A. N. A. convention and you will understand why Henri received the honor. Henri has a dynamic personality, coupled with good, clear, common sense. Henri has the Chicago Historical Society coin exhibit completed. I hear it is a "knock out"—and a work of art.

I hope to send you news from France for the next issue.

Alden Scott Boyer

NOMINATIONS FOR A. N. A. OFFICERS.

Harry T. Wilson, General Secretary of the A. N. A., reports having received the following nominations for officers of the A. N. A., the election to take place at the convention to be held in Chicago August 26 to 31, 1933. (The list is complete as of July 8, 1933).

For President—Nelson T. Thorson, Omaha, Neb.; L. A. Renaud, Montreal, Canada; A. S. Boyer, Chicago, Ill. (withdrawn).

For First Vice-President—Harvey L. Hansen, Piedmont, Cal.; L. A. Renaud, Montreal, Canada.

For Second Vice-President—Harvey L. Hansen, Piedmont, Cal.

For General Secretary—Harry T. Wilson, Chicago, Ill.

For Treasurer—George H. Blake, Jersey City, N. J.

For Librarian and Curator—Charles W. Foster, Rochester, N. Y.

For Members of the Board of Governors—William A. Philpott, Jr., Dallas, Texas; Harley L. Freeman, Cleveland, Ohio; T. James Clarke, Jamestown, N. Y.; Henry Hunt, Pittsburgh, Pa.; Farran Zerbe, New York City.

CHICAGO INVITES YOU.

You old-timers remember the glorious days when conventions were a jubilee. Although times have changed, the spirit of hospitality of your Chicago brothers has not changed a bit.

We are looking forward to next August, and our committees are working hard so that our Chicago A. N. A. convention will be a success. Most of you know Chicago, and those who don't should know our city. Chicago is within a night's ride of half the population of the U. S.

Bring your wife and family. The cost will be small; the sights will be large.

I wonder if you A. N. A. members realize what a stupendous thing this Century of Progress of ours is? I have never seen anything like it. If you could see the marvelous ultra-modernistic buildings of the Exposition as I see them every day, nothing could stop you from coming to Chicago for a visit.

I take great pleasure in personally inviting every A. N. A. member and family to the A. N. A. Convention, August 26 to 31, 1933.

Make your reservations early.

Come one, come all. We are ready for you.

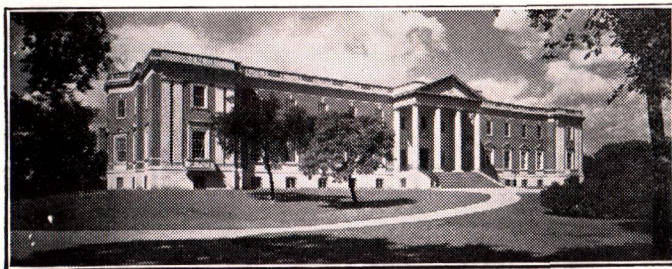

ALDEN SCOTT BOYER, President.

The Chicago Convention of the A. N. A.

AUGUST 26 TO 31, 1933.

By ROLLO E. GILMORE.

The A. N. A. convention in Chicago is going to be one of the most largely attended conventions, with an outstanding number of fine as well as rare numismatic exhibits, ever held by the A. N. A. Due to the fact that hundreds of thousands of people are daily coming to Chicago for A Century of Progress at this time, it is important that any member wishing to obtain hotel facilities make prompt arrangements for his stay, as most of the hotels are booked far in advance. Chicago is very popular this summer, with over 700 conventions meeting here. As the A. N. A. convention is held at the Congress Hotel, on Michigan avenue, it is desirable to make reservations in this hotel and it is suggested that you immediately correspond with Miss Cummings, care of Congress Hotel, Chicago, telling her the number in your party and requesting her to reserve rooms for your visit, stating the number desired. Plan to stay a few days after the convention is over in order to fully see all of the exhibits at A Century of Progress. This is suggested in view of the fact that one cannot see all of the buildings and exhibits contained therein in a single visit and really see and enjoy this wonderful

Chicago Historical Society Building.

scientific and educational exposition. Upon arriving it is recommended that you promptly register with the committee and obtain your book of tickets from the Convention Committee for the low price of \$6, which includes the banquet and various trips, such as a visit to the Taft Studio, The Chicago Historical Society, general gate admission to the Fair, good at any time, and an attractive official badge, which also entitles you to admittance to the Chicago Historical Society without usual admission charge. Now, I know you are interested in the sidelights of the convention.

The buildings with their exhibits that one may see with the general gate admission ticket attached to your convention book of tickets entitles you to admission to sixty-six different buildings.

Special attractions at the Fair with additional admission prices are the towering and spectacular Sky Ride, a special thrill feature of the Fair, which has rocket cars traveling 200 feet high above the lagoon; or a dirigible ride above the grounds; the Jantzen Bathing Beach; World's Fair Hollywood; the Streets of Paris; the Belgian Village; a magic or enchanted island for the children located on Northerly Island. As in all fairs, one will find a Midway, with all of the usual brilliantly lighted and colorful sideshows, strange and unusual spectacular attractions of a large carnival. You may visit here with the beauties of the Orient, who dance to strange tunes, and

wrestlers, fencers, sword-fighters, Egyptian diviners and jugglers give you glimpses of Cairo, Damascus, Tunis, Tripoli and Algiers. You can see the "apotheosis of America's womanly pulchritude," the "living wonders," the Siamese Twins, giant people, a midget village of sixty Lilliputians in their tiny houses, strange snakes and reptiles, and other "freaks" gathered from the four corners of the earth. You may see the Pantheon de la Guerre, the largest war picture in the world, or a Battle of Gettysburg.

If you wish to shop, the Fair's 23rd street concourse and bridge, said to rival the Ponte Vecchio of Rome, offers you a variety, from gifts, toys, jewelry, rare coins, stamps, relics, antiques, plaques, photographs, statuettes, etc. (More details of A Century of Progress numismatically are given elsewhere in this issue.)

Tuesday afternoon's visit to the Lorado Taft Studio of Sculpture is an afternoon full of interesting surroundings. Don't miss it.

You do not want to forget the auction event on Tuesday night, August 29th, at 8 P. M., in the Florentine Room of the Congress Hotel, when prized coins will be up at public auction, their ownership passing to you or some brother collector.

Wednesday at 7 P. M. we hold the annual A. N. A. banquet in the Gold Room of the Congress Hotel, and those present at past affairs know this is an evening for feasting and making merry.

The visit on Wednesday, August 30, at 1.30 P. M., to the Chicago Historical Society, at Clark street and North Avenue, on the southwest corner of Lincoln Park, will be a trip no numismatist or one interested in historical relics should miss, for it will be an experience you will never forget. Here the story of America is unfolded through a series of outstanding general exhibits from the days of Christopher Columbus to the World War. You will see relics of early Chicago and pioneer days of the Northwest Territory, the bed upon which Lincoln died, some frayed papers signed with a scrawled "A. Lincoln," a rail he split, the coat he was wearing when shot by the assassin, John Wilkes Booth, as well as relics of Washington, Lafayette and other historical personages. Then we will see a unique and interesting collection of rare coins, medals, obsolete paper money and documents, as well as a philatelic collection and a lecture in the coin room by the curator, Henri Ripstra (president of the Chicago Coin Club). East of the building across the drive may be seen the famous St. Gaudens Statue of Lincoln standing in front of his great chair.

CONGRESS HOTEL RATES TO A. N. A. MEMBERS.

Apparently some of the members have misconstrued some of my remarks in a previous article in The Numismatist, according to various requests received through mail by Miss Cummings, of the Congress Hotel, Chicago. I think it would be well to insert a paragraph in the August issue of The Numismatist, as to further details I have secured, and thus avoid any further misunderstandings among the readers.

Reserve rooms promptly. Address Miss Gertrude E. Cummings, telling her you are an A. N. A. member, and stating space desired, etc. It is very important, due to the crowded hotel facilities, that you make room reservations as much in advance as possible. No increase in rates to A. N. A. members. Rooms have been newly decorated.

Single room with bath, \$3.50 and up.

Double room with bath, \$2.50 per person (\$5 for two) and up.

Room with twin beds and bath, \$3.00 per person (\$6 for two) and up.

Two connecting rooms and bath for four persons, \$2 per person (\$8 for four) and up.

Room with bath for four persons, \$2.00 per person (\$8.00 for four) and up.

Room with detached bath, \$3.00 single or \$2.00 per person, if double.

A Century of Progress Numismatically

By ROLLO E. GILMORE.

Although there are no exclusive specialized numismatic exhibits at A Century of Progress Exposition, a numismatist and historian will find many hundreds of interesting numismatic items exhibited throughout the vast grounds.

For instance, near the 26th street entrance one will see a curious Mayan temple. This temple is a reproduction of the magnificent house of the nuns of Uxmal, which original building was located some 35 miles south of Merida, the town that was founded by the Spanish in 1542 A. D. in Yucatan, on the southern peninsula of Mexico. This unique and unusual architectural reproduction of the Mayan temple, with its curious sculptured architrave and exhibits within, show a lost civilization of the middle Americas dating probably hundreds of years before the Christian era, which reached its highest development about 1200 A. D.

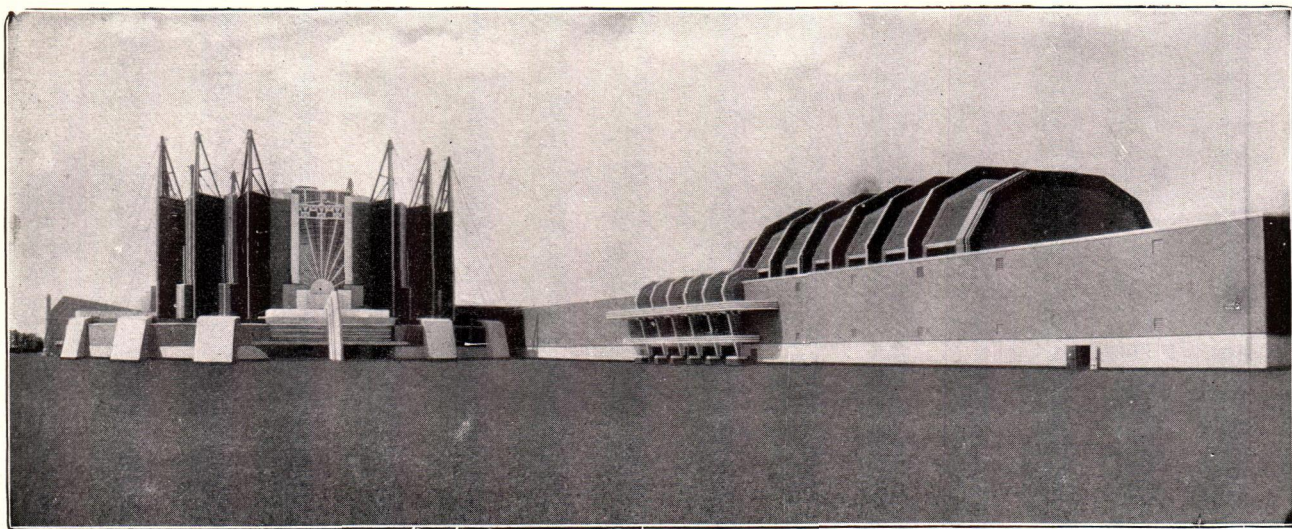

Bird's-Eye View of A Century of Progress Exposition.

To the numismatist the exhibit of curious Maya money will be of special interest, for it consists of cocoa beans, their lowest unit; shells, copper bells, jade beads and quetzal-bird feathers, which was their highest unit of all values. The cocoa bean's comparative value may be arrived at by the fact that ten cocoa beans would purchase a rabbit, or that a laborer received 100 beans a day for his services.

The skill of these people working gold and other minerals and stones shows moderately civilized people now extinct. To those who are especially interested in this series of money, they can obtain a pamphlet from the Tulane University of Louisiana, at New Orleans, La., entitled "Copper Trade and Monetary Units of the Maya," by Franz Blom, dated 1932, by sending \$1.

Near by is the American Indian House, where we can see fine examples of Navaho silversmithing, which jewelry is made from Mexican dollars (peso). Here, if one is interested in the Indian art, etc., he may obtain literature on any or all of the Indian tribes of the United States.

In the Transportation Building the Canadian exhibit is interesting, with

Travel and Transport Building and Dome.

Larger than the dome of St. Peter's or the Washington Capitol, this "sky-hung" dome of the Travel and Transport Building strikes a new note in architecture at Chicago's 1933 Century of Progress Exposition. The roof is formed of metal plates suspended by steel cables hung from a circle of twelve steel towers and anchored by huge slabs of concrete. It is the first application on any significant scale to architecture of the principle of the suspension bridge. The Travel and Transport Dome is 125 feet high and 200 feet across, without a single arch, pillar, beam or other support to break its expanse. It is said to be the largest unobstructed area to be enclosed beneath a roof. Expansion joints permit the plates which form the roof to slide over each other, as changes in temperature, wind velocity, rain or snow load cause differences of as much as six feet in the circumference. The hall at the right is 1,000 feet long and windowless.

various minerals, such as gold, silver, copper, nickel and other ores, asbestos, gypsum, etc. A fine exhibit of mounted wild animal life will also be seen here.

Near by in the Burlington train, in the mail car, one may purchase Century of Progress postage stamps and mail souvenir cards or letters home or to friends as mementos of your visit.

Continuing further south on the grounds to the Ukrainian Pavilion, a picturesque building of that country, located near the 37th street entrance, is an exhibit of 12 pieces of Ukraine paper money, as used by them.

Near the 23rd street entrance to the south one will see a picturesque group of sixteenth century buildings, reproductions of what one would see in a Belgian village today. Within one will see typical stores, homes, markets, eating places, etc., with their people in colorful native costumes. Here one will find, in one of the shops, pieces of the precious Baltic amber pieces, which small pieces often contain insects such as was passed current as money in Egypt, Venetia and Greece over 5000 years ago. A visit to the Belgian Village is worth the small admission charge.

For the admirer of Lincoln, one should visit the Illinois Host Building, near the 12th street entrance, where a reproduction of Lincoln's home in Springfield will be found, and a replica of the famous Lincoln Statue, by Lorado Taft. Here one will also find a great many fine relics from private collections, both in portraits, autographs, and mementos of this Civil War President.

An Ancient Temple Reconstructed.

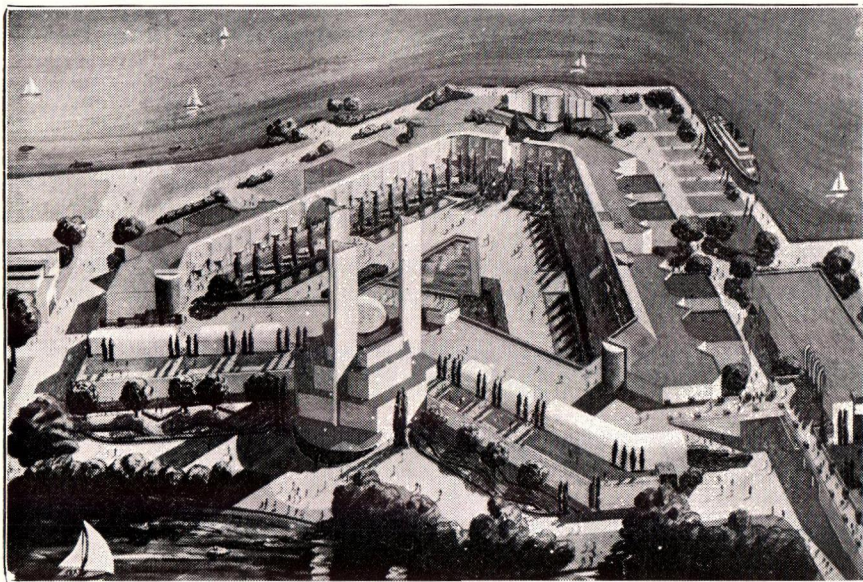

The Nunnery at Uxmal, one of the most elaborate of the Mayan religious buildings, is built in replica at A Century of Progress Expcsition. Two years were required by an expedition into Yucatan headed by Dr. Franz Blom to collect the data necessary for the structure.

In the General Exhibits Building admisers of diamonds may see them being made from the crude diamonds as well as the great Nassak diamond valued at about \$500,000 and weighing close to 80 carats. Here one will also see an African diamond mine. By entering an elevator you will be taken down into the bowels of the earth, where we see Kaffir and Zulu laborers drilling and digging in blue ground where diamonds are found. It is interesting to know the 15 tons of this blue ground was brought here from Kimberly, South Africa, especially for this display, and when this exhibition is over it will be taken bodily and installed in the Museum of Science and Industry in Chicago for permanent exhibit. On the second floor of this building in Agfa-Ansco Photograph Film booth may be seen an exhibit of 60 medals awarded Dr. Max Thorek. On the same floor in Baldwin Piano exhibit eight award medals are on display.

Another interesting group for the Lincoln collector is the Abraham Lincoln group buildings and Old Fort Dearborn. In the wigwam of the Lincoln

group one will find hundreds of mementos of Lincoln, souvenirs and pictures galore.

You will not regret a visit to the Czecho-Slovakian Building, located near the west leg of the Sky Ride Tower. Here you will see wonderful exhibits of glassware, jewelry, a philatelic exhibit and a numismatic exhibit. This exhibit shows the origin of the American dollar, with a specimen of the oldest thaler (dollar), coined at Jachimov (Joachimsthal), Czecho-Slovakia, prior to 1500; a Schlick thaler (dollar) coined at Jachymov, Czecho-Slovakia, in 1526; five different U. S. silver dollars of 1795, 1840, 1877 Trade dollars, 1900 Washington-Lafayette; two different U. S. gold dollars of 1853 and 1857; a 1922 Peace dollar; a California octagon dollar of 1855; five U. S. dollar bills of the series of 1862, 1886, 1896, 1923, and a small sized 1928 bill.

Federal Building (Foreground) and Hall of States.

The buildings are located on Northerly Island, across the lagoon from the Fair proper. The Hall of States, which houses exhibits of States and Territories, is a great horseshoe structure, two stories high, 500 feet across the base, with its two arms 500 feet long and 140 feet wide at the widest point. A landscaped court with sunken gardens and a triangular pool is enclosed by the horseshoe, across the base of which is the Federal Building. Three fluted towers, 150 feet high, rise above the 75-foot dome of this building, erected by the Federal Government at a cost of \$1,000,000, including exhibits. The towers represent the three branches of the Government—executive, legislative and judicial. Startling night lighting effects will be reflected in the lagoon, transforming the scene into one of magical beauty.

It was in the year 1518 that the Bohemians first coined silver and issued a coin weighing an ounce. So the monetary unit of the United States now based on the gold dollar was formerly a silver dollar of Bohemian origin. In the fifteenth century silver was discovered in a certain little valley in Bohemia (Czecho-Slovakia) near the village of Joachimsthal (Jachimov), one of the hereditary possessions of Count Schlick. In the year 1518 the Bohemians first coined silver, weighing an ounce, and named it "Joachims-thaler" in honor of the village near which the silver was produced. The coin was then called for short "thaler," and from this the word "dollar" originated, as the pronunciation is almost identical. Coins of that name and weight were issued in large quantities and soon became very popular not only in Bohemia but also in other European countries in which they circulated freely. The form and name varied with different countries. For

instance, we have daler for the Scandinavian countries; tallera for Italy, daalder for the Low Countries.

Spain soon adopted it as a standard silver coin and gave it a different name, which shortly thereafter became in common use in the Spanish dominions of Mexico and South America. Coins of that class were coined from these dominions in all the American colonies and there circulated in such quantities that they became of great importance in commercial purposes. The coin was known as the Spanish milled dollar (thaler) and its use became so common that it was in many localities adopted as a unit of value previous to our Revolutionary War. The coin was of such importance at the time of the Revolution that on April 19th, 1776, eight members of the Continental Congress were named as a "gold committee" and directed to ascertain the value of several species of foreign gold and silver coins then current in the American colonies, and the proportion they and each of them bore to the Spanish milled dollar. This committee reported to the Continental Congress on May 23, 1776.

After the Revolution, when the time came for the United States to establish a coinage system, Mr. Jefferson, a member of the committee, recommended the Spanish milled dollar, giving as the reason that it was a well-known coin and most familiar to the minds of all people of the entire world. On April 2, 1792, Congress passed an act establishing a mint and regulating the coins of the United States.

Across in the Italian Building may be seen many fine pictures of the archaeological ruins of ancient Rome. One may secure specimens of Italian medallic art here.

Visiting the Chinese Building, near the west tower of the Sky Ride, we find many fine exhibits. One is the Restoration Company's booth. To the right of entrance, where a chart appears, are rubbings of rare Chinese coins, starting with the early knife or Tao-coins of the pre-Christian era, and other coins down to the present day. In the center at rear of the court we may visit the exhibit of the "Jade Pagoda," which is said to be a million-dollar collection. The Chinese Theater may interest some. In the southeast corner of this building is a unique collection of ancient Chinese jades, exhibited by Henry H. Wu, which may be viewed between 11 and 12 A. M. and 3 and 4 P. M.

The Hall of Religion is interesting and about all creeds are housed within one roof. The Lutheran booth contains an exhibit of paper money burnt at funerals for use of the departed in the other world and is also burnt as an offering to evil spirits. A number of memorial medals issued for various anniversaries of the Reformation; one of silver having the appearance of an old thaler is dated 1630. The Judaism booths have an exhibit of six attractive miniature bronze plaques, by Boris Schutz, of Jerusalem. The Presbyterian booth has an exhibit of 17 rare sacramental tokens as were in use about 1830 to 1840, which showed that the holders were in good standing.

The Treasury Department exhibit in the Federal Building of the Court of States group, will interest all of us. In the Bureau of the Mint section one may see the original mint coining press in which Martha Washington silver was made into half dime and dimes in 1792 when the U. S. mint was first opened and coining began. Beside this is located a modern electric coining press in operating condition set up to make Century of Progress medals.

Nearby is located the Bureau of Engraving and Printing, with actual equipment for making U. S. paper money, bonds, internal revenue stamps and postage stamps. The framed exhibits consist of two frames of U. S. old notes, one of which contains a \$1, \$2 and \$5 legal-tender notes; \$1, \$2 and \$5 coin notes; \$20, \$50 and \$1000 silver certificates; \$10, \$20, \$50, \$100, \$500, \$1000, \$5000 and \$10,000 gold certificates; \$20, \$50, and \$100 national currency notes; \$100, \$1000 and \$10,000 Federal Reserve notes, all of which are of the large-size bills. Another frame contains somewhat similar denomination notes, but are of the small size, 1928 series, notes. Another frame contains various Government bonds. Another frame of miscellaneous exhibits contains a series of U. S. bills that especially attracted my eye in denominations of \$1000, \$10,000, \$100,000, \$500,000 and a rare \$1,000,000 bill. Below these were Philippine Treasury certificates in denominations of 1, 2, 5, 10, 20, 50, 100 and 500 pesos. Other frames of interest to the philatelist are U. S. postage stamps and U. S. internal revenue

stamps. Try and get the attendants to make you a souvenir \$1,000,000 bill and you will be well off.

Authority has been given for the Bureau at this exhibit to print sheets of 25 stamps of both the one-cent green and the three-cent purple denominations and to have the inscription around the border "Printed by the Bureau of Engraving and Printing, by authority of James A. Farley, Postmaster-General, at the Century of Progress Exposition, as a compliment to the American Philatelic Society, Chicago, August 1933." The Philatelic Society is meeting in the Exposition city from August 21 to August 26, at which time the stamps will be on sale.

In the Georgia State exhibit, located in the Court of States group, one may see an exhibit of the first gold mined in America, at Dahlonega, Ga., in 1838. On exhibit are gold nuggets, gold quartz and examples of \$1, \$2.50 and \$5 gold, mined and minted at Dahlonega; medals of the State Geological Survey, as well as fine display cases of rocks, fossils, game, pecans, etc. Here one may purchase any number of the Stone Mountain half dollars up to about two million at \$1 apiece.

At the California Building, in the Court of States group, one may see the redwood empire and exhibits of minerals, including gold ore and nuggets; a model gold-mining plant in miniature; a miniature relief map of San Francisco, Hollywood, waterfalls and submarine gardens.

Last of all, we suggest a visit to the Art Institute, at the head of Adams Street, on Michigan Avenue. In addition to its wonderful exhibit of sculpture, paintings and rare art objects and relics, one will find a fine collection of coins presented to the Institute by an A. N. A. member, Mr. Dunham, of Chicago.

WILL YOU HAVE AN EXHIBIT AT THE CHICAGO CONVENTION?

Those who have attended A. N. A. conventions know that the exhibits are the outstanding feature of these yearly gatherings. The display at the coming Chicago convention is expected to be as interesting as any in the past. The Century of Progress Exposition will draw visitors to Chicago from all over the United States, and the occasion will be a splendid opportunity for real numismatic missionary work. It is expected that sufficient cases will be provided to take care of all exhibits, but Mr. Cederlund, of the Chicago Coin Club, requests that all contemplating making an exhibit will promptly get in touch with him so that he may reserve space for them. His address is R. Cederlund, 548 Provident Avenue, Winnetka, Ill.

CHICAGO CONVENTION PAPERS WANTED—CALL FOR VOLUNTEERS.

All A. N. A. members of literary distinction and ambition are urgently requested to help along the success of the Chicago convention by furnishing papers on numismatic topics, to be read there, so that from the point of view of achievement along the lines of numismatic literature the Chicago convention will prove as great a success as it will undoubtedly be from the social point of view.

For its successful work the committee appeals to all A. N. A. members with a facile pen. Send in your papers, or at least write the committee that you are preparing one for the convention.

As the time until the convention is very short, please communicate promptly with the chairman of the committee, Moritz Wormser, 95 Fifth avenue, New York City.

ROCHESTER NUMISMATIC ASSOCIATION—490th meeting, June 26, Vice-President Foster in the chair. The following members were present: Messrs. Horner, Dr. Peake, Amberg, Lange, G. J. Lindboe, Plumb, Moore, Babin, G. J. Bauer, Sunday, Sloane and Foster. Judge Knight, of Buffalo; Mrs. Sunday and Miss Huss were present as visitors.

A communication was read from Franklyn J. Herrick regarding the postponement of a joint meeting with the Hornell Club until fall.

Messrs. Bauer, Horner, Amberg, Plumb and Foster all reported on the Tri-State Convention held at Jamestown on the 16th and 17th of June.

Plans were made for the July outing. It was decided to hold it jointly with the July 4 meeting at Point Peake on July 8. Mr. Bauer was appointed chairman of the refreshments committee.

The question period was devoted to several subjects, ranging from ancient standards to the striking of proof coins by the Government and commemorative issues.

The auction contained a miscellaneous variety, including some minor proof coins of the U. S., small South American silver and transportation tokens.

ROCHESTER NUMISMATIC ASSOCIATION—491st meeting, July 8, held jointly with an outing at Point Peake. The following members were present: Messrs. Woodbury, Horner, Dr. Peake, Sloane, Amberg, Plumb, Babin, Haringx, Liess, Sunday, Johanson, G. J. Bauer, Gillette, Lange and Foster. The following were present as visitors: Mrs. Hart, J. D. Christman, J. B. Gilman and Franklin Sloane.

After an afternoon of horseshoe pitching and card playing the members sat down to a fine repast prepared by our new chef, Mr. Bauer and his assistants.

A short business meeting followed, during which a card was read from Alphonse A. Kolb, who is enjoying a vacation in Germany.

The secretary announced that all A. N. A. members who were planning an exhibit at the convention should write to Mr. Cederlund and ask that he reserve space for it.

The secretary also showed a copy of Wyllie's "Orders, Decorations and Insignia," which had been purchased for the A. N. A. Library.

A motion was made and carried that the secretary be authorized to purchase a copy of this book for the R. N. A. Library.

WESTERN RESERVE NUMISMATIC CLUB—148th meeting, June 14th, President Budde in the chair, with 25 members and 10 guests present.

The entertainment committee then provided a list of 16 questions pertaining to the current U. S. dime. The power of observation of our various members was considerably below par.

Exhibits were as follows:

Mr. Gibbs: Counterstamped and cut coins of the West Indies.

Mr. Mitzman: An uncirculated mohur of Hindustan.

Mr. Gregor: U. S. gold dollars, two-and-a-half dollars, three dollars, and quarter dollars.

Mr. Freeman: Several national bank notes of Ohio banks.

The meeting was then turned over to the auctioneer and the very fine lot of material contributed by the various members from their duplicates was auctioned. The club treasury was benefitted to the extent of \$43.

WESTERN RESERVE NUMISMATIC CLUB—149th meeting, July 12th, President Budde in the chair, with 23 members and 5 guests present.

F. C. C. Boyd, secretary of the New York Numismatic Club, said a few words and extended greetings from his club.

The subject of the Club renewing its invitation to the American Numismatic Association to hold the 1934 convention in Cleveland was brought up for discussion and the members were overwhelmingly in favor of it. The secretary was instructed to proceed accordingly.

Inasmuch as the August meeting will be the 150th meeting of the club, the members agreed to turn out in force for dinner and everyone promised to make exhibits.

Exhibits were as follows:

Mr. Spencer: Imperial Roman denarii and second bronzes in very fine condition.

Mr. Gibbs, Jr.: Colonial paper money of Delaware, Pennsylvania, Maryland and New Jersey.

Mr. Gibbs, Sr.: Various specimens of wampum and boat money; from different parts of Africa he exhibited shell, bead, brass and copper ring money; a proof set of 1932 coins of Rhodesia; 50 reales of Spain, 1635; 5 talers of Brunswick, 1647; an English pound silver of 1642; Japanese gold.

Mr. Sikorski: A set of 1893 World's Fair tickets and a set from the 1933 Century of Progress; also Century of Progress medals and Fort Dearborn penny, and two bronze medals issued by the Italian Government; 1928 Oregon Trail half dollar.

Mr. Gregor: Twenty uncirculated Peace dollars and a Louisiana medal of 1915.

Mr. Runge: Emergency scrip of Cleveland.

DETROIT COIN CLUB—218th meeting, June 15. Members present: Messrs. Hoare, Curto, Temple, Snyder, Kaller, Dworkowski, Fulton, Dr. Renz, Needeles, Dively, Stehfest and Hubel. Visitors present: Messrs. Deane, Brownlee, Hitchcock and Brown. Meeting was called to order by President Hubel.

E. Hoare gave a very interesting talk on English gold pieces.

Dr. Russell Renz offered to be host to the Detroit Coin Club members at their next regular meeting, to be held at the Detroit Social Turnverein, on East Jefferson avenue. Dr. Renz made a donation to the Detroit Coin Club of four pieces, namely: U. S. Trade dollar, 1880, proof; half dollar, 1817, fine; half dollar, 1795, fine; half dollar, 1853, arrows and rays, fine. A vote of thanks was given Dr. Renz for his donation.

Exhibits were as follows:

Dr. Renz: 1852 U. S. Assay Office (San Francisco) \$50 gold piece, octagonal, very fine; 16 encased postage stamps, 14 varieties; U. S. \$100, 1882 series, gold back, Benton, signed by G. Parker, John Burke, very fine; U. S. 1901 \$10, Lewis and Clark note, Speelman and White, uncirculated; U. S. 1862 State National Bank of El Paso, Texas, \$20, very fine; U. S. 1896 \$2, silver certificate, Bruce and Roberts; U. S. 1862 \$2, Chase, Chittenden and Spinner; four \$1 silver certificates, series of 1923, Woods and White.

Mr. Needeles: Five French medals; one English money weight; 24 Roman first bronze coins from 29 B. C. to 249 A. D.

Mr. Betron: The 1933 Detroit News Spelling Bee medal, school championship, bronze, only four issued.

DETROIT COIN CLUB—219th meeting, July 6. Members present: Messrs. Dr. Renz, Noyes, Watson, Needeles, Duff, Curto, Bott, Kaller, Kling, Temple, Stehfest, Hubel, Fratcher, Dworkowski, A. Hutchinson, Powell, Telfer, Rapp, Hoare, Dodd, Fulton and Bradlin. Visitors present: Messrs. Betron, Eggert, Kimbel and A. Mayfield. Meeting was called to order by President Hubel.

A lively auction sale of twenty-six lots of coins followed, at which time several fine U. S. \$1 gold pieces and old Roman coins were sold. Mr. Needeles auctioned six fine Washington medals. Mr. A. Mayfield had ten lots in the auction and donated half the proceeds to the club.

As Dr. Russell Renz was host to the Detroit Coin Club members at this meeting, it was held at his club house, the Detroit Social Turnverein. The private dining room adjoining the main ballroom was set for his guests. Refreshments were in vogue throughout the meeting, and after the auction a wonderful supper was served. Dr. Renz donated a Philadelphia 1928 silver dollar, uncirculated, in a leather case for a door prize, and it was won by Mr. John Watson.

A rising vote of thanks was given Dr. Renz for the wonderful party he had given to the Detroit Coin Club members and guests. After the supper members enjoyed music by the Leo Schultze Dance Orchestra.

Exhibits were as follows:

Dr. Renz: U. S. \$20 gold piece of 1896, brilliant proof; Russian platinum piece of 1835, three rubles, uncirculated.

Mr. Hubel: One bronze and one Dowmetal medal issued at State of Michigan exhibit at the Century of Progress Exposition, Chicago, 1933.

WESTERN PENNSYLVANIA NUMISMATIC SOCIETY—June 6, President Marlier in the chair. The following members were present: Messrs. Marlier, Gaede, Piper, Hunt, Woodside, Laughlin, McCune, Manning, Hall, Marks and Gies. A. M. Barker and William Bailey were visitors.

Mr. Hunt gave an interesting talk on the Jamestown convention and on the Talbot Allum & Lee New York Colonial coins.

A catalogue was received from Wayte Raymond on United States Notes, 1861-1923.

Exhibits were as follows:

Mr. Piper: Medals of Columbian Exposition; Columbian Exposition ad-

mission card; St. Louis Exposition admission card; 8 Centennial Exposition, Philadelphia, medals; Hendrik Hudson 1 daalder; Panama-Pacific Exposition official souvenir medal; Western Pennsylvania Exposition Society medal; 2 Lincoln medals; Roosevelt medal, struck in hard coal at Louisiana Purchase Exposition; Centennial of Allegheny County medal; I. O. O. F. medal and 1909 marksman medal, second class, National Guard, Pennsylvania.

Mr. Hunt: Nine varieties of Talbot, Allum & Lee.

Mr. Laughlin: U. S. silver dollars, 1842, ex. f.; 1844, unc., pf. surf.; 1883, proof; 1884 CC, unc.; 1900, unc.; 1928, unc.; 1876 Trade, proof, and 1877 Trade, S, unc.

PITTSBURGH COIN CLUB—June 8. Present: Messrs. Hunt, Eastwood, Gibbs, H. Gibbs, Jr., Buterbaugh, Eiben, Sallach and Barker. Mr. Hunt, the president, in the chair.

Members spoke briefly about their exhibits.

The following exhibits were shown:

Mr. Hunt: U. S. Hard Times tokens; \$10 gold piece of 1795 and \$5 gold piece of 1802.

Mr. Gibbs: Odd and curious currency; stone money, Point Moresby district, Koiri tribe, New Guinea; clay money, Mexico; whale teeth, Fiji; ring money of Victoria Nyanza and Portuguese Angola; bronze rings, Roman, Syrian, and Chinese; flexible wire in long strings and in bracelets, West Africa; very odd iron coin of Dahomey district, shaped like two cowbells, one large and one small, fastened together, similar to trumbash, from Melville collection; many odd items of African native money—tortoise shell, beads, etc.

Mr. H. Gibbs, Jr.: U. S. large United States bank note, payable at agency in London, for 350 pounds sterling, signed by N. Biddle, financier of that time.

Mr. Eastwood: Several coins of Austria in copper and nickel.

Mr. Eiben: Dollar-size coins, including Hawaii, 1883; several U. S. types,

also Germany and Hungary; minor coins of Spain and Cuba and an Indian rupee of 1891.

Mr. Sallach: Silver coins of Bolivia and Brazil.

Mr. Buterbaugh: Roman coins of Constantine and Crispus and a Bavarian crown-size piece of 1818.

COLUMBUS (OHIO) NUMISMATIC SOCIETY—July 10th. A goodly number of members as well as several visitors were present.

Sam Kabealo gave an interesting talk on commemorative coins, which he illustrated from Mr. Griffin's display of U. S. commemoratives.

Dr. J. M. Henderson had a good exhibit of early and rare U. S. gold coins.

An invitation was extended to the Ohio State Numismatic Society to hold its annual convention in this city, which will probably be some time during the month of October.

An auction was held at the close of the meeting.

BUFFALO NUMISMATIC ASSOCIATION—June 26. Meeting called to order by President Mosher. Members present: Messrs. Hopkins, Whittall, Girmann, Lloyd, Koci, Taylor and Schunke.

In the absence of Secretary Charles E. Stoaks for July and August, Mr. Mosher appointed Mr. Whittall.

Mr. Lloyd reported for the committee on award ribbons. These were issued to the parties exhibiting at Buffalo Historical Society at the annual meeting April 8th, 1933, who came from outside the local club. The regular blue ribbons of white silk were imprinted in scarlet and issued to Howard D. Gibbs, of Pittsburgh, and William E. Trantum, of Jamestown, the ribbons being presented at the Tri-State Convention at Jamestown, June 16th.

Mr. Mosher reported on the Jamestown meeting of June 16th and 17th, giving particular attention to the exhibits, attendance, etc., which report was appreciated by those who were unable to attend this year.

A very interesting discussion on counterfeiting was led by Mr. Mosher, who mentioned the law and fines and punishments, national as well as in the various States. All of the members took part with comments on the methods of the Secret Service.

Exhibits were as follows:

W. C. Girmann: 1723 Rosa Americana half penny; Mott's token of 1789, New York; Massachusetts half cent, 1787.

Mr. Mosher: Pine Tree shilling, 1652, Crosby 21-L.

The A. N. A. copy of Crosby's "Early Coins of America" was shown and admired by all.

Mr. Whittall reported on the condition of the library and convention badges.

NORTHAMPTON NUMISMATIC SOCIETY—June 28. Members present were Messrs. Hill, Paul-hus, Pond, Drowne, Joyce, Miller and Parsons. Visitors, Howard Rice and Earl Damon.

Roy Hill made an exhibit of old wills, invoices and other interesting papers of Colonial days in Massachusetts, among which was a lieutenant's commission signed by John Hancock, Governor of Massachusetts, first signer of the Declaration of Independence of the United States. A vote of thanks was given to Mr. Hill by the society. It was also voted to omit the July and August meetings and continue in September.

CALIFORNIA COIN CLUB—65th monthly meeting, July 6th. Members attending were: Messrs. Burks, Carey, Carlson, Devore, Galitzki, Goldberg, Haas, Harbeck, Jorgensen, Kirkpatrick, Krachey, Laible, Ed M. Lee, Kenneth Lee, May, Palmer, Simmons, Smith and Van Rossem.

The applications of E. D. Krachey and Isadore Goldberg were brought before the members for action. Both were unanimously elected to membership in the club and a hearty welcome extended.

A communication was read from Harvey L. Hansen, secretary of the Pacific Coast Numismatic Society, in which was extended to our club the invitation to meet in San Francisco next October at the first regional convention of numismatists. The matter was discussed and met with hearty approval. Indications were that a number of our group would plan to attend. Motion was passed to acquaint the P. C. N. S. with our action and assure them our cooperation in any possible way.

As our July meeting was designated as bargain night, the remainder of the evening was given over to buying, selling, trading, etc., of pieces no longer wanted, duplicates, and what not. Everyone brought their extra material, priced it to sell, and got rid of all duplicate material. Much interest was stimulated, lots of coins were bought and sold, and everyone participated in and enjoyed the evening. Bargain night was voted a huge success and all hope we may soon have another.

ROYAL NUMISMATIC SOCIETY—May 18. Percy H. Webb, Esq., president, in the chair.

Messrs. Arthur Ridgway Denton and Frants Johan Hansen were elected Fellows of the Society.

Mr. Henry Garside exhibited the Bulgarian 100, 50 and 20 leva in silver and 10 and 5 leva in nickel, all of 1930.

Mr. William Gilbert showed an aureus of Tetricus I (Cohn. 182 obv. and 204 rev.) in mint condition, wt. 97 grains.

Sir Charles Oman exhibited 13 completely silvered bronze coins from Aurelian to Julian, the earlier obviously being attempts to copy the antoniniani of the earlier third century; but what do the Julian's try to represent?

The evening was given up to the reading of four short papers.

Mr. Mattingly reported briefly on the Selsey hoard of nearly 1000 silver coins of the third century, almost all antoniniani, from Elagabalus to Quintillus, and laid stress on the chronological difficulty arising from the finding of coins of Quintillus without any of Tetricus.

Mr. O'Neil briefly described the conditions under which a hoard of solidi and siliquae was made at Terling in the early nineteenth century.

Mr. Pearce read a note on the "aes" type of Theodosius I, their sequence and their bearing on history. He pointed out the special importance of Thessalonica as a meeting point of East and West and showed how Theodosius's interference in the West to protect Valentinian II against Maximus is marked by the encroachment of his Eastern type SALVS REIPUBLICAE on the Italian mints.

Mr. Salisbury read, as a footnote to his recent paper on coin types of Gallienus, a short note on types of Claudius, showing how the changed temper and policy of the new reign at once found expression on the coins.

OUTING OF THE SPRINGFIELD COIN CLUB.

Through the courtesy of Mr. and Mrs. Herbert R. Wolcott, the Springfield Coin Club enjoyed its second outing at their summer home in Amherst on Wednesday afternoon and evening, June 21. The day was of the traditional "perfect" order, and the spacious lawn, with its setting of trees and wild flowers, afforded room for exploration, sightseeing and gatherings of members and visitors exhibiting specimens or intent upon conversation relating to the common interest of all for the time being.

It was "ladies' day" as well, and members and guests to the number of thirty-one assembled from Springfield, Northampton and neighboring places. Tables were set on the lawn, around which the guests ate their basket lunches, coffee and soda being supplied by the hosts.

The chief event of the gathering was the address given by a former President of the A. N. A., Carl Wurtzbach, of Lee, and the exhibition of his superb collection of U. S. cents. Mr. Gaylord, president of the Springfield Coin Club, called the meeting together and introduced Mr. Wurtzbach, who told of the A. N. A. and the choice of officers, three of whom, with himself as President, had been from the central part of Massachusetts, and all of whom, himself, Mr. Oliver and Mr. Wolcott, were then present.

He gave an interesting account of the development of interest in collecting and particularly in the collecting of "common cents," telling in that connection of the representative of an electrical firm in India who came to the home of a missionary to install a wall plug. After endless questions as to method, etc., the lady told him to use common sense. With a low salaam he replied, "Madam, common sense is the gift of God; I am only a graduate of a technical college."

Mr. Wurtzbach exhibited copies of the several standard works on the U. S. cents and then proceeded to display and explain his own unrivaled collec-

tion, exhibiting every known variety of every date shown in the illustrations, a magnificent collection of pieces in uncirculated and fine condition, which caused all present to open their eyes with wonder, to exhaust all the superlatives in the dictionary and hopelessly shatter the tenth commandment. The fame of this splendid collection is well known and it was a high privilege indeed for the members and guests to inspect it under the direction of the collector himself. The company was reluctant to break the enchantment of the hour and did not until darkness forbade further examination. A vote of thanks was extended to the host and hostess and a most enjoyable occasion had passed into history.

There were present from Springfield, President Gaylord, Messrs. Pond, Oliver, Wolcott, Roberts and Morris; from Westfield, Fuller and Dougherty; from Holyoke, Kohler; from Northampton, Parsons, Joyce, Hill; from Hadley, Morse and from Amherst, Luther.

"OLD UNITED STATES COINS."

We have received a copy of a pamphlet of 18 pages entitled "Old United States Coins," written and published by W. Edward Dickinson, of Pleasant Valley, Conn. It was published originally in the Hartford Courant and has been reprinted in pamphlet form. In preparing his article for the Courant it was the author's purpose to inform its readers within the territory served by that paper some idea of the value of the scarce and rare United States coins. Its publication in pamphlet form will enable it to have a much wider circulation.

The pamphlet is not intended for the seasoned collector, but was prepared for the novice and the public generally. It is highly probable that collectors will disagree in some instances with the author as to the values he places on the coins. He states that the prices given are for "coins in very fine or better condition, unless otherwise specified." The pamphlet also contains an explanation of the different grades of preservation of coins as understood by collectors and the various mint marks. The back cover page contains an announcement of the A. N. A. and The Numismatist.

COIN PRICES OF EIGHTY-SEVEN YEARS AGO.

The following is a record of some prices realized at a sale of coins in London, taken from the October, 1846, issue of the Merchants Magazine:

Pennies Converted to Pounds.

At a late sale of coins in London, forming a part of the collection of curiosities owned by the late venerable Archdeacon Todd, the pennies were turned into pounds with a facility which would have gratified even a Yankee speculator. A Queen Anne's farthing of the year 1713 sold for 1 pound 19 shillings; a pattern halfpenny, bronze, of ditto, 15 shillings; a William and Mary pattern halfpenny, 19 shillings; a George III pattern for a penny (tin), 10 shillings; nine Charlemagne silver pennies, 2 pounds; a silver medallion, by Pistrucci, 1838, 2 pounds 9 shillings; and a George III pattern for a crown, 2 pounds 4 shillings.

NEW ZEALAND IS TO HAVE COINS OF ITS OWN DESIGN.

Special correspondence to the New York Times from Wellington, New Zealand, says that these islands are to have their own coinage soon and a Government committee is now considering the question of issuing the new coins, which are likely to be designed in that country and made by the British Mint.

Artists are petitioning the committee to hold a competition for the designs and art societies are urging care because of the designs of the recently approved new postage stamps, which are characterized as "deplorable." They also point to the fact that the British coinage has steadily deteriorated in design and say that this is an opportunity to achieve a striking success.

LOOKING FORWARD AND UPWARD

The "New Deal" certainly seems to have affected the numismatic field.

My Sale of May 9th resembled a Sale of the "good old days." The number of bidders represented, nearly four hundred (400), and the prevailing prices, almost reached a record peak!

PAPER MONEY

State Bank, South Carolina.

The State Bank, located at Charleston, South Carolina, was incorporated December 19th, 1801. In 1802 the charter was revoked and a new charter was granted. It is probable the bank did a private banking business before it was incorporated as a State Bank, as the charter was applied for by John Blake, President, David Alexander and the other Directors.

According to the Act of Incorporation, the Capital Stock of the Bank was to consist of 8000 shares of \$100.00 each; 3000 shares were to be subscribed by the State. The votes of stockholders were limited to one vote for four shares, and no stockholder was allowed more than thirty votes. Only Stockholders who were citizens of the United States were allowed to vote or be chosen as a Director.

John Blake, President; Simeon Theus, Cashier, in 1803. Thomas Lee was elected President in 1817. Elias Horry, President, in 1822. Thomas Lee was re-elected President in 1823 and continued in office until 1839; James Jervy, 1839 to 1845, and Edward Sebring, 1845 to 1865. Cashiers, John Dawson, 1819; Samuel Wragg, 1823; Henry Trescott, 184- to 1857; Benjamin M. Lee, 1857 to 1865.

The State Bank did not suspend specie payments during the panic of 1857. Statement as of October, 1857: Discount, \$442,075.00; Deposits, \$110,105.00; Specie, \$54,451.00; Circulation, \$223,825.00.

Denominations of notes issued for Circulation: \$5, \$10, \$20, \$50 and \$100.

\$5 Note, "Center, Early View of State Bank building at corner of Broad St. and East Bay." Fine, 30c. Good, 20c.

\$10 Note, "Center, Ship and other vessels." Fine, 50c. Good, 30c.

\$20 Note, "Right, Portrait of Washington. Left, Portrait of Franklin." Fine, 50c.

\$50 Note, "Center, Cotton plant on shield, etc." Fine, \$2.00.
